OUR VISION

To be the preferred provider of ICT products and services locally, regionally & the global community.

OUR MISSION

- TaSim Networks is surrounded by highly motivated and ambitious individuals with the drive and determination to succeed customers' expectations at all levels.
- We are in the business of providing reliable, dependable, high-quality and innovative Information Technology solutions. Our products and services provide value to our clients, enhancing their ability to effectively communicate worldwide.
- To provide ICT solutions to the rapidly changing world environment, provide ICT educationand training, create a thriving ICT community through empowerment, grow the ICT industry by connecting people, ideas and resources.

OUR VALUES

Tasim Networks values are consistently aligned with the Vision and Mission to the extent that they are instrumental for achieving these, and fundamentally reflect an ethical attitude based on principles of tolerance, respect and cooperation with all the stakeholders with which the company wishes to develop and consolidate its project:

Commitment: We take charge of the proactive consolidation of our projects.

Customer focus: We uncover, understand and consolidate the needs of our customers.

Innovation: We bring value to new ideas, approaching them with a creative, professional & critical attitude in order to put them into practice.

Flexibility: We adapt to our field, which is in constant evolution.

Resolution: We reach our objectives through a combinationof enthusiasm, logic and pragmatism.

Honesty: We demonstrate integrity in our actions.

Credibility: We do what we say.

Development: We encourage the continued development of individuals through cohesion, collaboration and teamwork.
